

## Who Was This Veteran?

By TomL

Famous people I have met. A Veteran came to a meeting I was attending some years ago. I listened to this veteran's story. He was being escorted around by other veterans helping him tell his story. According to his report, he was the last person alive that raised the flag on Iwo Jima and he felt obligated to tell the true story. He started: It was a day of a lot of dying. His fellow soldiers were falling all around him. After and during the battle a small group of soldiers put up the flag to show the ships and other soldiers that they had taken that part of the island. A high ranking military officer was watching with a pair of binoculars from a ship that was just off shore. He was struck by the sight of the flag raising. So after the battle he decided it would make a great photo op to send back home to USA. So he contacted his photographer to meet him on shore. The original men were no longer there that raised the flag so he asked some soldiers that were there to pose for the picture. He had

acquired a much larger flag for the photo op. They took the picture which you see today but without the original soldiers in it. According to this veteran some of the original men were fighting on the other side of the island while the picture was being taken. This veteran telling the story said he would be able to rest better after he told the story for his comrades who had all passed away. I was touched by his story. I recently went to the internet and acquired some information so I will inject into the story here. Because of this story, history was changed. You will also see that the Marine Corps investigated and corrected the original story.

Off the internet:

There were six Flag Raisers on the famous Iwo Jima photo, four in the front line and two in back. The front four are (left to right) Ira Hayes, Franklin Sousley, Harold Schultz and Harlon Block. The back two are Michael Strank (behind Sousley) and Rene Gagnon (behind Schultz). Strank, Block and Sousley

*Continued page 2*

Picture is Walt left & Eric, right of Walt's Brakes and More. They are family owned and have operated since 1965. They have three generations working the business with ten employees, twenty bays, three diesel techs. Walt's Brakes and More had started out as a brake shop in Miami, Florida. Walt senior designed brake systems for school buses and semis. They

would later expand to Ocala where they call home today.

They have a motorhome division under roof for repairing and storage. Drop by and see Walt. He will welcome you. Walt's favorite words are "Bring it in". That is what he has always said to me. They do a good job and he has always been fair.

## Charges Dropped on School Bus Driver!

By TomL

Several months ago I wrote a story about a School Bus Driver that was charged wrongfully. She was charged with Child Abuse, was arrested, lost her job of 30 years, was humiliated and her picture was on the internet in Marion County prison attire. Here is how it went down.

Two male teachers come out the school with a student, one hand under each arm and put him on the handicap bus. The aide asked him to get into his seat. He refused but finally did. The aide was trying to get him buckled in because the bus can't move until he is buckled in. He punched the aide in the face and grabbed the seatbelt buckle next to him and hit the aide in the head with it.

The bus driver seeing this went back and held his hands down so that the aide could buckle him in. The school charged the driver with child abuse?

Now fast forward two months later, they decide to drop the charges?????????

What about the humiliation this driver endured?

What about the loss of her job?

What about the retirement loss if she had worked a few more years?

What about the stigma they have placed on her?

What do you think she should do?????????

Answer: you're right. She is now looking for a good Civil attorney.

Kevin Sheilley

## OCALA/MARION COUNTY CHAMBER & ECONOMIC PARTNERSHIP

I went Over the Edge! While many have tried to push me over the edge through the years, it was the arts that sent me. To be more precise, it was the Marion Cultural Alliance and their recent fundraiser, Over the Edge – Taking the Arts to New Heights, which saw me

and approximately 60 other volunteers help to raise nearly \$70,000 by rappelling off of the new 7-story SpringHill Suites hotel. When my mom saw the Facebook post where I was soliciting funds for the event, she called. She was very concerned that “you are going to die.” I assured her that I

was planning on “Staying Alive” and thus rappelled in my favorite 70's disco attire! (Note—while fun, rappelling in Florida in a polyester suit is not recommended).

Why would CEO of the Chamber & Economic Partnership join the Mayor, County Commission Chair, County Administrator, and others in raising funds for the community's central arts funding organization? It is a fair question and one that is hopefully addressed in this column.

### Big Business

The arts is a big deal in the Ocala Metro. The Marion Cultural Alliance has a creative registry of more than 145 different organization in our community. 145+! These organizations range from the nationally-recognized Ocala Civic Theater

to the Magnolia Art Xchange, from the Marion Ballet to the Performing Arts Conservatory to everything in between. Performing arts, visuals arts, professional artists, and amateurs are all afforded incredible opportunities in this community.

Not only are there a lot of arts organizations, but they make a significant contribution to our economy. According to the recent Arts & Economic Prosperity study conducted by Americans for the Arts found that the arts contributed more than \$55 million to the local economy. Additionally, for every \$1 spent in the arts, it produces a \$3 return. This compares to a national average of \$1.50 – a doubling of the return!

Additionally, the CEP has partnered with MCA to provide technical assistance for artists to understand business-side of their art. The CEP also served as an advisor to the exciting new Magnolia Art Xchange, an incubator for artists to soon to open in the

former rail depot adjacent to the Tusawilla Art Park.

### Quality of Place

As excited as I am about the entrepreneurial opportunities and those economic numbers, it is the role of the arts to help make Ocala uniquely Ocala that most excites me. Recently, we hosted my in-laws from out of state over the Mother's Day weekend and attended one of my family's favorite events: FAFO's (Fine Arts For Ocala) Symphony Under the Stars featuring the Ocala Symphony. My mother-in-law, a violinist and former orchestra member, was impressed by not only the quality the music and but the incredible community spirit around the evening. It is a uniquely Ocala-experience.

Think about it. The art that speaks most clearly, most passionately to us is that which connects us to one another and our community. Horse Fever. Symphony Under the Stars. Ocala Arts Festival. The Reilly Center. Each of these is completely unique to our community. They help to shape us and tell our story. Art makes Ocala Ocala and makes it a great place to Life Life Here.

## Who Was This?

*Continued from page 1*

would die shortly afterwards. Bradley, Hayes and Gagnon became national heroes within weeks.

2016 update: The Marine Corps investigated and determined that Harold Henry Schultz was among the 6 in the famous photograph of the 2nd flag raising instead of John Bradley.

Publishers Note: This Publisher thanks all who have sacrificed themselves and family member sacrifices to keep America Great and Keep America Safe.

## Gov DeSantis Signs 11 Bills

Tallahassee, Fla. – Governor Ron DeSantis signed the following bills:

- CS/HB 7 – Direct Health Care Agreements
- CS/HB 207 – Impact Fees
- CS/HB 213 – Immunization Registry
- CS/CS/CS/HB 301 – Insurance
- CS/CS/HB 453 – Micromobility Devices
- CS/HB 521 – Wetland Mitigation
- HB 549 – Continuing Education for Dentists
- CS/HB 831 – Electronic Prescribing
- CS/HB 7057 - Corrections
- CS/SB 190 – Higher Education
- CS/CS/CS/SB 862 – Lessor Liability Under Special Mobile Equipment Leases

Florida State Senate

**DENNIS K. BAXLEY**

Dear Friends,  
Let me begin by telling you that it is truly an honor and privilege to be serving you in the Florida Senate. The people in my district, in h o m e t o w n America, are salt-of-the-earth, hardworking people who love liberty and freedom. It is such a pleasure to sit in your Senate seat and advocate for those principles you hold dear.

Despite you may (or may not) hear from the liberal media about our work in Tallahassee, your Senator, along with great leadership in the Florida Senate, accomplished much for the citizens of the State of Florida. Even though many major news outlets wish to paint a bleaker picture, there have been many advocacy groups and organizations from across the State of Florida that have chosen to celebrate our success from the past few months and offer recognition on our behalf.

This past year, your Senator was recognized by the Space Coast Public Service Awards & Hall of Fame with the Distinguished Merit Award. The purpose of this is to celebrate the value and virtue of the highest standards of public service and commends those professionals who have

performed with exceptional skill, technical expertise, commitment, and innovation while demonstrating sustainable results. A special thank you to Sheriff Wayne Ivey of Brevard County for this recognition.

We just received word a few days ago that your Senator has received another "A" grade from the Florida Chamber of Commerce. It was pleasure to partner with the Florida Chamber on number of different policy areas that would help to lower the cost of living and cost of doing business on families and job creators, while also preparing for future growth and

protecting Florida's constitution.

Also, the Foundation for Florida's Future selected your Senator to the 2019 Report Card Honor Roll, and was given the highest grade possible. The Foundation advances policies that challenge the status quo – policies and tirelessly advocates for every Florida child to have access to a quality education that prepares them for lifelong success. The Foundations Honor Roll recognizes those policymakers who took bold action to pass student-centered legislation during the 2019 legislative session.

Finally, your Senator received the Outstanding Legislator Award from the Association of Florida Community Developers (AFCD) for our commitment

to providing an effective, efficient, and responsible planning and policy framework that will support economic development while protecting Florida's many natural assets. The AFCD exists to provide a leadership role in the creation of quality community development and the formulation of a responsible approach to the planning and development of Florida's future.

Thank you for partnering with me in this fight to preserve faith, family, freedom, opportunity, and life itself. As always, if this office can be of any assistance to you, please do not hesitate to contact me.

### PUBLISHER'S NOTES

The oldest computer can be traced back to Adam and Eve. Surprise! It was an Apple. It had extremely limited memory. Just one byte. Then everything crashed.

Sanders, Harris, Booker and Warren are pushing the Democratic party off the cliff and re-Identifying the Party. I was a lifelong Democrat coming from my Family upbringing. This very thing they are doing now is what help me make up my mind this was not the party for me. Obama started the move to the left. Moving to a different party was a traumatic move because of family. A few of my family have opened their eyes, others have not. It is their choice, I don't mind, they are still family. I have many friends who have different views.

Believe it or not? A KGB defector Yuri Bezmenovs warned America about brain washing in the schools and colleges. One of

the other things they are being taught is to use the word "racist".

American values are under attack. If you push too hard something has to give or break. I hope it is not our form of government. Respect the people in office and vote with your heart and brain.

Many years ago while working at a daily newspaper, there was a young Englishman working alongside of me. He got mad one day and said he did not like our country. I said "Then why don't you get out and go back to where you come from". He said "I will" and he did. He went back to England and within a year and a half he was back. He worked two jobs for a year to make enough money after taxes to move back to the good old USA. The taxes had double since he left.

In the Good Old USA some colleges are teaching students the socialist side of a country is good and they have a better way to run it. Free is not always good. That is how they get control of you. The colleges that are doing that are doing a great dis-service to

our country and our wellbeing. I believe in giving someone a hand up but not a handout.

The way it affects the media? There is a large majority of business people. While talking to a news person, radio, newspaper, television, magazine, etc, they see opportunity for free coverage or press release. I ask how do you think the news continues to bring you the news? Through paid advertising! If you are a current advertiser then yes ask for a free press release. You help to support the news media. When I work out among business people at least one business person asks or hints about free coverage, sometimes it's many or even a friend. I cannot survive running free press releases. So before you ask or hint please keep that in mind. The media can't survive on free!

China: One of the big complaints the farmers have is they sell grain or goods to China buyers and after they receive the goods they say the quality is not good so they down grade the quality and pay less then they originally agreed. The farmer has no come back. If they lodge a complaint China buyers won't buy from that farmer next time. They just go beat another farmer out of revenue.

We have another Newspaper Conference

coming up in August. We have entered a few of our pictures, ads, story's and etc. I hope the judges are good to us this year.

# WHAT THEY ARE SAYING

## Boeing Space and Launch Headquarters Moving to Florida's Space Coast

**Tallahassee, Fla.** – Today, Boeing announced that it is moving its Space and Launch Headquarters from Arlington, Va. to Titusville on Florida's Space Coast. Below is what Governor DeSantis, state leaders and elected officials are saying about this important announcement:

"Florida is the world's premiere gateway to space and our commercial space industry continues to flourish," said **Governor DeSantis**. "Boeing's decision to move its Space and Launch headquarters from Arlington, Virginia to Titusville affirms our state's position as a national leader in innovation and job growth and will bring increased investment to the Space Coast."

"We are thrilled Boeing has made the decision to relocate to Titusville, Florida," said **Lieutenant Governor Jeanette Nuñez**. "It is further evidence that Florida is the ideal environment for the space industry to continue thriving. We welcome Boeing and encourage others to enjoy the benefits our great state has to offer."

"The relocation of the Boeing Defense, Space & Security Space and Launch headquarters to Florida is more of a homecoming than a move to someplace new," said **Boeing Defense, Space & Security President and CEO Leanne Caret**. "Boeing helped build the Space

Coast during the first Space Age and has long been a leading presence in this storied community. As we move forward into the second Space Age, Boeing will build the future again from this base across our portfolio of human spaceflight, military and commercial space programs."

"Boeing's decision to move its Space and Launch headquarters to Titusville further solidifies Florida's position in becoming the global leader in space exploration, national security and space commerce," said **Frank DiBello, President and CEO of Space Florida**. "The Cape Canaveral Spaceport is well-positioned to lead the future of this industry, and we join Governor DeSantis in welcoming the headquarters to the State. Space Florida looks forward to witnessing Boeing expand its already storied presence here on the Space Coast."

"This is fantastic news for Florida and we are excited to once again partner with Boeing to bring jobs to Florida," said **Tim Vanderhoof, Senior Vice President for Business Development at Enterprise Florida**. "It speaks volumes to Florida's standing as a premier business state when a global leader like Boeing decides to make such a significant commitment. I thank them for their continued partnership and look forward to seeing their growth on the Space Coast."

"I am so pleased that Boeing has chosen to join the other major manufactures in locating their headquarters to the Space Coast," said **state Senator Tom Wright**. "As our space industry continues to thrive, we look forward to the increased investment and opportunities this move will provide for

Floridians and their families. Thank you to Boeing for realizing the potential Florida has to offer."

"Florida's space and aviation industries are thriving, which has never been more evident than with Boeing's announcement this morning," said **state Senator Debbie Mayfield**. "Governor DeSantis has prioritized the Space Coast and the relocation of Boeing's space and launch headquarters to Titusville will enhance our economy and provide job opportunities for Floridians."

"I commend and thank Boeing for relocating their space and launch headquarters from Virginia to Florida," said **state Representative Thad Altman**. "This announcement is fantastic news for the men and women who work on our Space Coast. With Governor DeSantis leading the charge, our space industry has never been stronger and I look forward to the positive results this headquarters will bring to the community."

"Boeing undoubtedly made the right decision by relocating their space headquarters to Florida," said **state Representative Randy Fine**. "I would like to thank Governor DeSantis and Boeing for realizing what the Space Coast has to offer. With this announcement, Florida has solidified itself as a leader in this industry and Florida families will benefit from this great news."

"Boeing's announcement is the latest example of Florida's resurgent commercial aerospace industry," said **state Representative Tyler Sirois**. "I am proud to have this great company grow its footprint on Florida's Space Coast. I share Governor

DeSantis' commitment to see Florida lead the way in commercial aerospace— both to grow our economy and advance our national security."

"With today's announcement by Boeing, Florida's space industry is only gaining speed," said **state Representative Rene Plasencia**. "Since taking office, the Governor has made the Space Coast a top priority and we are seeing the results. By relocating their space and launch headquarters to Florida, Boeing understands that Florida is the best place for development and growth."

## LETTERS TO THE EDITOR

### To the Editor

To put it lightly we are all scoundrels at heart?

For the past several years I have been wrestling with that very issue. When I was 40 I was fortunate enough to be able to go to college, and enrolled in the political science program with a view toward running for office some day. I was an original member of the Women's Campaign School at Yale University. However, God put his finger in my life, and it was not possible to follow that path.

It has crossed my mind often, if I had succeeded, and was elected, was I knowledgeable enough to remain honest? Would I have been honest enough to resist temptation, sans the knowledge I now have?

With the amount and kind of knowledge I have managed to accumulate through just reading extensively, my answer is unequivocally: YES. Nothing would tempt me now, money is not as important as knowledge. I am comfortable, and that is all I require. Ostentation could not make me any happier than I now am. How many people know the extent of the corruption in the government? The vote is the only measuring stick we have to judge that issue.

It takes knowledge, and the library, and book stores are my best friends. If this helps one person, it will be a source of great satisfaction. This has been my goal in life for 50 years.

Humans can build a better world, but the power lusters know how to keep us dumbed down, we need to do an end run around their plan.

Give knowledge a higher priority, seek it, devour it as if it were gold, and then use it to make a better world.

D.I.L.

**WHAT SAY YOU?**

### Letter to the editor

The one day privacy law is widely known as the abortion law. You have an abortion one day. And Roe vs. Wade applies then.

Why aren't women in control of their bodies on the day of conception as well? Make it a two day law? It seems feminists want it both ways.

Some women were in control of their bodies before anyone ever thought of this right to privacy. Women have always had the right and responsibility, and exercised it. We decided if we wanted 3, or 6, or 12 children.

Roe vs. Wade only supplants the right to responsibility. That is the crux of feminists, females wanting special dispensation from responsibility. Look at the mess they make of the things they touch.

Equal rights for all are fair. However, that is not what feminism is all about. It is about the sup plantation by the Macho broads for the Macho dudes. Feminism is about Power Lustening women. Feminists want power, money and, sex just like the Macho Dudes. The female of the species is always deadlier, the toxics. Other perspectives are as legitimate as feminist views, and deserve a hearing.

Strong women, smart women can make it on their own. Compete fairly. That is not at all what feminism is about. Suffragettes had little in common with feminists. Suffragettes wanted the vote, but there was no mention of qualifications to vote. All voters need to be informed. That should have been included in the right to vote petition. Some form of knowledge requirement. Uninformed voters are a detriment to society. Some of my friends rely on my research for a guide to vote, think they should invest the time and effort to acquaint themselves with candidates and issues, voting is too important.

Look at our current congress. Laws, votes, and responsibilities have consequences. We need to do research before we embrace issues, and candidates. Freedom requires diligence against the Power Lustening corrupters.

### To the Editor

There are evolving conditions in society that facilitate changes in society, in fact are demanded they occur and allow for economic changes and advances. Economists study these things, and F.A. Hayek's book does an in-depth history of economics. Governments cannot accommodate these changes. Ergo no government can adequately run an economic system. The evolutionary changes that occur in society are beyond the scope of governmental capabilities.

Do you think economists who tear these matters to shreds looking for workable economic solutions can be so wrong, and power lustening bureaucrats right?

Economists use many many istics, and isms known only to themselves, so it's difficult to follow their writings. Read The Fatal Conceit, by Brantley, Hayek became ill, Brantley Finished the book} and encountered this problem. Did research of the istics and isms But when I read it a second time things began to make much more sense.

Who are you willing trust? Economists { there are good and bad economists} or power luster's?

Certain there are other economists who go on even beyond Hayek, but he will have to suffice for now. He covers economics pretty thoroughly from antiquity to the present. He even explains why Aristotle and Plato are dated in their body of ideas. Evolution accounts for much of what drives economies. Economics are not that easy to follow.

Economists vote for capitalism as the best economic system devised thus far. Make no mistake power luster's have corrupted capitalism as well, but it can be fixed if we get rid of the legal plunder they have injected into the system, plus corruption of every stripe. We can tear economics apart, too.

The best place to keep up with all the corruption is Foreign Affairs Magazine, the CFR publication. You might want to take a Tum before you tackle those articles.

The customer is king was the mantra, not any longer. Corporations rule. This flip flop is not how business should operate. We allow it with our silence.

D.I.L.

## Celebrating Independence

### Celebrating Independence Day

By Blanca Taylor

Social Security Public Affairs Specialist July 4<sup>th</sup> brings family and friends together, as well as neighbors, to celebrate that we're all part of a community. Everyone pitches in, combining their resources — great food, music, and displays — to lift our spirits.

Social Security has been helping people maintain their independence for over 80 years. In that time, we've made it even easier for you to access the programs and benefits you might need. Today, applying online is a fast way to get those crucial benefits.

Here are some of the benefits you can apply for:

**Retirement or Spouse's Benefits** – You must be at least 61 years and 9 months old and want your benefits to start no more than four months in the future. Apply at [www.socialsecurity.gov/retireonline](http://www.socialsecurity.gov/retireonline).

**Disability** – You can apply online for disability benefits. Apply for Disability at [www.socialsecurity.gov/disabilityonline](http://www.socialsecurity.gov/disabilityonline).

**Extra Help with Medicare Prescription Drug Costs** – Some people need assistance with the cost of medications. Apply for Extra Help at [www.socialsecurity.gov/i1020](http://www.socialsecurity.gov/i1020).

**Medicare** – Medicare is a national health insurance program administered by the U.S. federal government that began in 1966. You should apply before your 65<sup>th</sup> birthday at

# Bill to Mitigate Harmful Effects of Red Tide

**Governor Ron DeSantis Signs SB 1552 to Mitigate Harmful Effects of Red Tide Sarasota, Fla.—**

Today, Governor Ron DeSantis signed SB 1552: Florida Red Tide Mitigation and Technology Development Initiative. The bill establishes the Florida Red Tide Mitigation and Technology Development Initiative as a partnership between the Florida Fish and Wildlife Conservation Commission's (FWC) Fish and Wildlife Research Institute and Mote Marine Laboratory to develop technologies and approaches to control and mitigate red tide and its impacts.

This legislation supports the objectives of Executive Order 19-12, signed by Governor DeSantis just two days into his term on January 10, 2019. The executive order called for expedited action to protect and restore waterbodies of the state. Additionally, the Governor's recommended budget prioritized increased research and a focus on science, and the exploration of innovative technologies to address and mitigate harmful effects of red tide and blue-green algal blooms.

"Innovative technologies will play a vital role in our continued efforts to address water quality issues facing our state and I'm confident this partnership between FWC and Mote Marine will advance our knowledge in this area," said **Governor DeSantis**. "I thank the Florida Legislature for their support in addressing these environmental challenges that increasingly threaten our fragile ecosystems and the way

of life for so many Floridians."

"Our economy, health and quality of life are tied to the well-being of our environment," said **Senate President Bill Galvano**. "The Florida Red Tide Mitigation and Technology Development Initiative will help our state develop technologies and approaches needed to address the control and mitigation of red tide and its impacts. I appreciate Governor DeSantis' support for this important legislation and for his ongoing advocacy for innovative, science-based solutions that will help Florida address ongoing environmental concerns that impact communities across our state."

"The bold environmental agenda set forth by Governor DeSantis and the passing of this legislation are turning points in the State of Florida's approach to our challenging water quality issues," said **Senator Joe Gruters**. "I am proud to have sponsored this legislation to help better protect our natural resources by mitigating the harmful effects of red tide."

"I was grateful to carry this good legislation in the House and I thank my colleagues and Governor DeSantis for helping us get it over the finish line," said **Representative Michael Grant**. "I commend the Governor's steadfast commitment to finding innovative solutions to our water quality challenges and I look forward to the contributions that will come from the collaboration between FWC and Mote Marine."

The Florida Red Tide Mitigation and Technology Development Initiative is

required to submit an annual report, beginning January 15, 2021, containing an overview of the initiative's accomplishments and priorities to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Secretary of the Department of Environmental Protection (DEP) and the Executive Director of FWC.

"We want to thank Governor DeSantis for his leadership in prioritizing Florida's natural resources," said **FWC Executive Director Eric Sutton**. "With his support and our strong partnerships, we can accelerate our understanding of the causes and explore the possibilities of managing red tide."

"Successful algal bloom recovery and response are dependent on science, collaboration and innovation," said **DEP Secretary Noah Valenstein**. "The Governor's direction and leadership has ensured that Florida has the needed resources, and that we are using the best science to prioritize these efforts so that we can accomplish the water quality improvements set forth in Governor DeSantis' executive order."

"We are grateful for a historic level of support demonstrated by this year's state legislature and Governor DeSantis for addressing significant environmental challenges to our

coastal marine environment," said **Dr. Michael P. Crosby, Mote Marine President & CEO**. "Governor DeSantis stated in his inaugural address that the quality of our water and environmental surroundings are foundational to our prosperity as a state, and that together we will fight red tide – clearly he doesn't just talk, he follows through with action. Mote welcomes the opportunity to serve in a leadership role for the Florida Red Tide Mitigation & Technology Development Initiative, in partnership with FWC and a number of our partners. This initiative provides vital and consistent funding for science-based solutions to impacts from red tide that negatively affect our state's environment, economy and way of life."

The bill provides for an annual appropriation of \$3 million beginning in the 2019-2020 fiscal year and through the 2024-2025 fiscal year from the General Revenue Fund to FWC for the purpose of implementing the bill.

## School Prayer

Some time back a 15 years old school student was told they could not say the Lords Prayer in school. He was inspired to write the following!

Now I sit me down in school  
Where praying is against the rule  
For this great nation under God  
Finds mention of Him very odd.

If scripture now the class recites,  
It violates the Bill of Rights.  
And anytime my head I bow  
Becomes a Federal matter now.

Our hair can be purple, orange or green,  
That is no offense; it is a freedom scene.  
The law is specific, the law is precise.  
Prayers spoken aloud are a serious vice.

For praying in a public hall  
Might offend someone with no faith at all..  
In silence alone we must meditate,  
God's name is prohibited by the State..

We're allowed to cuss and dress like freaks,  
And pierce our noses, tongues and cheeks..  
They've outlawed guns, but FIRST the Bible.  
To quote the Good Book makes me liable.

We can elect a pregnant Senior Queen,  
And the 'unwed daddy,' our Senior King.  
It's 'inappropriate' to teach right from wrong,  
We're taught that such 'judgments' do not belong..

We can get our condoms and birth controls,  
Study witchcraft, vampires and totem poles..  
But the Ten Commandments are not allowed,  
No word of God must reach this crowd.

It's scary here I must confess,  
When chaos reigns the school's a mess.  
So, Lord, this silent plea I make:  
Should I be shot, my soul please take!

Amen

## Olives

(NAPSI)—Among the tastiest and most versatile fruits on Earth, olives are enjoyed by many cultures around the world. They have been in existence for 8,000 years, and while olives are not indigenous to the Americas, they have been in the New World for a good long time.

### Then

It was the Spanish who introduced olives to Peru and Argentina in the 1500s. As time passed, olive trees made their way up the Pacific Coast through Mexico when

Spanish missionaries brought them to California in 1769.

However, it wasn't until the 1900s when commercial olive production began in the United States, thanks to a German immigrant woman named Freda Ehmman. She had a small grove and began experimenting with 280 gallons of olives on her back porch in Oakland, California, thus inventing the ripe olive style that Americans have come to know and love.

### Now

Today, from Washington to Florida and in every state in between, olives are found on pizzas, pastas, salads, tacos and in casseroles, but many people prefer the pleasure of eating an olive in its simplest form.

### Nutritious and Delicious

Olives are loaded with phytonutrients, rich with omega-3s, low in carbohydrates and only a few calories a pop, so you can enjoy them every day.

To make that easier than ever, Lindsay created Snack and Go!, snack-size cups that can be easily packed in a lunchbox, taken to work for when those salty cravings kick in, or stashed in the car to satisfy hunger pangs that hit between school and soccer practice. They're liquid-free so there's no mess. Whether you like black ripe olives whole or sliced, Kalamatas or pimiento stuffed, Lindsay has you covered.

### Fun Facts About Olives

- A Manzanilla tree can grow over 7,000 olives on average.
- An olive tree can live for more than 1,000 years.
- The folks at Lindsay pit 1,800 olives per minute.

### 2019 Human Trafficking Summit

Planning for our 2019 Human Trafficking Summit is underway, and we are accepting nominations now for this year's Summit awards. Florida is fortunate to have so many people dedicated to the fight to end human trafficking and help trafficking survivors heal. I look forward to recognizing some of these outstanding Floridians when we host the Summit this fall.

If you know someone who is committed to the fight to stop human trafficking or strives to help survivors of this atrocious crime get back on their feet, please nominate them so we can recognize their efforts.

The following four awards will be presented during the summit:

- Community Advocate of the Year;
- Law Enforcement Officer of the Year; Prosecutor of the Year; and
- Survivor Advocate of the Year.

Award nominations should be submitted to [OAGHT.Summit@MyFloridaLegal.com](mailto:OAGHT.Summit@MyFloridaLegal.com).

The Summit will be held on Monday, Sept. 30, 2019, at the Hyatt Regency Orlando. Information including the agenda, hotel information, registration information and speaker proposals can be found [here](#). Speaker proposals for the Summit will be accepted through the end of the month. Registration opens on July 1, 2019.

The Annual Human Trafficking Summit is hosted by our office, the Florida Department of Children and Families, and the Florida Department of Juvenile Justice. This year's collegiate sponsor is the University of Central Florida.

I hope you can attend this important gathering and join our fight to end human trafficking, but you don't have to wait till the Summit to get involved. Please learn the signs of trafficking now and know where to report it by visiting [YouCanStopHT.com](http://YouCanStopHT.com).

Working together, we will build a stronger, safer Florida.

## Don't Let Tires Flatten Travel Plans

(NAPSI)—Getting a flat tire is no fun for anyone at any time, especially on vacation. To keep your next road trip rolling along, the nonprofit Car Care Council recommends a quick tire check before you leave the driveway.

“The excitement of summer vacation quickly deflates when your car has a flat tire,” said Rich White, executive director, Car Care Council. “A quick four-step tire check will help you to avoid the aggravation of changing a flat tire on the side of the road.”

**1. Check** that all tires, including the spare, are inflated to recommended pressure levels.

**2. Check** tire tread depth with a simple penny test—if you see Lincoln's head above the tread, then it is time for new tires.

**3. Check** for irregular wear as uneven wear indicates a need for wheel alignment.

**4. Check** tires for cuts, bruises, bulges, bald spots or other irregularities that can lead to a flat tire.

“AAA expects to get calls from stranded motorists this summer and a good portion of those vehicle troubles will be tire related,” said White. “A comprehensive pre-trip vehicle inspection, including the tires, is the best way to alert yourself to any potential issues so you can address them before you leave home and keep your road trip on track.”

For more information on tire safety and maintenance, visit

[www.ustires.org/safety](http://www.ustires.org/safety). For service interval schedules, questions to ask a technician and other helpful auto care information, view the Car Care Council's free digital “Car Care Guide” at

[www.carcare.org/car-care-guide](http://www.carcare.org/car-care-guide).

The Car Care Council is the source of information for the “Be Car Care Aware” consumer education campaign promoting the benefits of regular vehicle care, maintenance and repair to consumers. To order a free copy of the “Car Care Guide,” visit [www.carcare.org](http://www.carcare.org).

## Spicy Thai Chicken Wings

Serving Size: 12 Wings  
Cook Time: 45 Minutes

- ¼ cup Angry Orchard Crisp Apple
- 12 chicken wings
- 2 tsp baking powder
- 2 tsp salt
- 1 tsp pepper
- ¼ cup Thai sweet chili sauce
- 1 Tbsp sriracha
- Chopped cilantro

Preheat oven to 425° F. In a large bowl, toss chicken wings with baking powder, salt and pepper until evenly coated. Place in oven and cook until crisp and golden—about 35–40 minutes. In a clean large mixing bowl, combine chili sauce, cider and sriracha. Whisk until combined and set aside until ready to use. Toss cooked wings with the glaze and top with chopped cilantro. Serve immediately.
