

Sheriff's Youth Ranch

Sheriff's Youth Ranch - Arvid Powell gave a presentation on the different Youth Ranches in Florida and information on how you could support them. Boys and girls learn farming, ranching, chef skills and many useful employable categories. They are taught much information that they can use in their life. Speaker Arvid says most of these youth just need structure. It was a great presentation.

Diane Leaf Retires

Diane Leaf Retires after 27 Years with Ocala Recreation and Parks.

Diane was born and raised in West Virginia. She graduated from Ohio State with BS in Education. Her interest were Field - recreation and emphasis in therapeutic recreation. She started her recreation career during summers while attending college at Cedar Point Amusement Park as a ride operator/foreman. After graduation, started career in therapeutic recreation serving as a recreation therapist in several clinical settings. She worked with blind, mentally challenged, physically challenged, incarcerated youth, drug and alcohol rehab and nursing home. In 1989 started working for Ocala Recreation and Parks as their Therapeutic Recreation Supervisor planning, organizing and implementing programs, activities and special events for senior citizens and individuals with disabilities. In 1990, she

took the first certification exam offered for Certified Therapeutic Recreation Specialist (CTRS). Also certified as a Certified Recreation and Park Professional

Federal Government Says No Help!

Federal Government Needs To Be A Better Partner

Governor Rick Scott

September 22, 2016

We are doing our part in Florida, but we need the federal government to be a good partner, which includes both Congress and President Obama.

I went to Washington last week and met with Congressional leaders about the importance for the federal government to get serious about financing the fight against Zika in our country. I asked Congress to get something done. But, what I found in Washington could not be more maddening. Everyone in both parties told me they enthusiastically support the federal government getting serious about erasing Zika.

In all my meetings with both Republicans and Democrats, I couldn't find anyone who opposes the federal government spending money to eradicate Zika. But, what has happened? Nothing. It's a perfect example of the complete dysfunction in Washington. Everyone is for funding to get rid of

Zika — so of course nothing happens.

This explains the problem with our entire federal government — incompetence.

When you travel around and talk to voters all across the country today, they will tell you that Washington is broken. That's not really true, it is much worse than broken. To call our federal government broken is far too complimentary. No, the truth is that Washington is completely incompetent.

Everything we are doing in Florida to combat this virus is to protect pregnant women and their developing babies. As a father and a grandfather, I cannot imagine the challenges a child would have being born with microcephaly — or any other birth defect for that matter. That's why I have continued to call on Congress to get involved in the fight against Zika. How hard could this be? Zika is a threat to our health and it can cause terrible birth defects.

Meanwhile, the taxpayers of Florida have now spent over \$26 million fighting Zika, and I just allocated another \$10 million to ensure our counties and local mos-

quito boards continue to have all of the resources they need to combat Zika. We are doing our part in Florida, but we need the federal government to be a good partner, which includes both Congress and President Obama. Obama has not provided the leadership that is needed to get this done, and it would be nice if he stopped taking vacations and focused all his energy on this.

Our broken federal government would never survive in the business world. If they were a company, they would fail. They would go under. They would be fired. Yet, members of Congress scratch their heads and wonder why the public is fed up with Washington.

If they are serious about getting something done, they won't leave Washington until there is money for Zika. Congress can't go on recess, and all the members focused on running for reelection should suspend their campaigns until funding is passed. Members should not be in their districts campaigning to keep their jobs when

they should be in Washington trying to pass a Zika bill.

Any person in business can tell you that you must be able to function and get things done to continue to operate. For Washington, this would mean actually taking the eradication of the Zika virus seriously and wiping it out through aggressive research and treatment. But every day that passes that Congress doesn't approve funding means more time is lost from researching Zika to find a vaccine to help pregnant women and their growing babies.

Inaction and incompetence — not common sense — rules the day in Washington. And, for every day that goes by without federal action against Zika, the continued spread of this virus and illnesses that result from it are the sad, sick proof that Washington isn't just broken, it must be completely overhauled from top to bottom.

Rick Scott is the Republican governor of Florida.

DENNIS K. BAXLEY

Late at night on August 30th, Marion County seated its first senator in 22 years, and its first republican senator in 130 years and his name was Dennis Baxley.

"This district is my home. It is

where I have done business, raised children, and served the public. I am honored to have

the opportunity to now represent them in the state Senate. Florida is on the verge of a new era of prosperity, and this district needs a senator who has the experience and leadership skills to make sure that our area is not left behind. I believe that I am the person best prepared to be that leader."

Having a State Senator from Marion County will open many doors for the region and help facilitate the growth of Marion County and North Central Florida. The more people on your team in Tallahassee, the better, and Dennis Baxley provides a strong

voice of support and encouragement for this area.

"I'm very excited, it's been a tremendous journey, and I've met so many wonderful people. So I'm very excited, I feel like we

made history and put Marion County in a position to lead"

Thank you, voters from Marion, Lake, and Sumter for believing in our leadership for the region.

SENIOR SCHEDULE OF EVENTS

OCTOBER

Grilling Expert Shares Number One Tip For Tailgating Success

(NAPS)—With tailgating season in full swing, acclaimed grilling expert and New York Times best-selling cookbook author Jamie Purviance says game day grilling should be low stress, yet full of flavor. His Chicken Nachos with Chipotle Cream Sauce are ideal for a tailgate party as you can smoke the chicken the day before, leaving more time to relax and celebrate with friends.

“Preparation is key for a successful parking lot party,” says Purviance, author of “Weber’s New American Barbecue.” “The majority of steps for this Chicken Nachos recipe involve smoking the chicken—which can be done in advance. When the grill is fired up on game day, you’re less than 10 minutes away from delicious smoky, cheesy

nachos.”

Smoked Chicken Nachos With Chipotle Cream And Avocado

Serves: 6 | Prep Time: 20 Minutes | Grilling Time: 32 To 39 Minutes | Special Equipment: 2 Large Handfuls Mesquite Or Hickory Wood Chips, Large Grill-Proof Pan Or Disposable Foil Pan

Chipotle Cream

1 cup sour cream
1 canned chipotle chile pepper in adobo sauce, minced
1 tablespoon fresh lime juice
¼ teaspoon kosher salt

Rub

2 teaspoons kosher salt
1 teaspoon freshly ground black pepper
1 teaspoon ground cumin
1 teaspoon paprika
½ teaspoon ground cayenne pepper

4 chicken breast halves (with bone and skin), each about 8 ounces

12 ounces corn tortilla chips

14 ounces Monterey Jack cheese, coarsely grated

4 scallions, cut into thin slices

2 tablespoons finely chopped jalapeño chile peppers

1 large Hass avocado, cut into ½-inch cubes

Juice of ½ lime

¼ cup roughly chopped fresh cilantro leaves

Store-bought salsa (optional)

This is a fun way to use up leftover barbecued chicken or turkey. Who doesn’t love some cheesy, meaty nachos with smoky sour cream and fresh avocado? It’s worth smoking some spice-rubbed chicken breasts just for this recipe. Using bone-in rather than boneless chicken breasts requires a longer cooking time, but there’s a dividend: the meat has more time to absorb the flavorful smoke.

1. Soak the wood chips in water for at least 30 minutes.

2. Whisk the chipotle cream ingredients, including any juices remaining from mincing the chipotle chile. Refrigerate until

PUBLISHER'S NOTES

This month is a little late to write about the Primary but I feel I must. I was extremely happy to see Dennis Baxley win against someone that the Villages endorsed. It took a lot of hard/smart work to make that happen. My congratulations to the Baxley Team. You know I have never heard a harsh word out of Dennis Baxley's mouth and that's what makes him so effective. He does not take things personal, he has an agenda, he fights a battle wins or loses and says next, and goes on to the next item on the agenda. From the very beginning I felt he would win, after all he was running ads in our newspapers. Thank You Senator Baxley! Next to address a few upsets, Dean getting beat was surprising to everyone, McFadden ran a good primary race. Superin-

tendent of schools lost. WOW! Earl Arnett lost to the Stone name. There were many surprises. The biggest disappointment was not being able to vote for Chris Blair. Since the new evidence has come out people have been emailing, writing letters and calling the Governor. No one can seem to get through to Pam Bondi, all the emails seem to bounce back. I asked Chris Blair if anyone had complained to the State Election Board in Tallahassee about obstruction by the State Attorneys Office two Primary Elections in a row. He said he had not. But I heard there was some talk.

Got an email from a Democrat who apparently looked up my LLC and said the following: I do not want you to deliver the Ocala DownTown / Lady Lake Magazine / Village Spectator / Seniors Voice of Ocala to my address. I thanked the person for being a reader and put them on our no throw list. We received many positive emails and phone

From the Messy Desk of the Publisher

calls, one was to get extra copies of the issue explaining the new Chris Blair evidence. I know we can't please all of the people all of the time. It seems I only pissed off one Democrat. Thank God!

I heard from an insurance person that the Villages Hospital will only accept AARP United Health Care. I checked it out, the Vil

OCALA/MARION COUNTY CHAMBER & ECONOMIC PARTNERSHIP

In 2015, the CEP unveiled the results of an economic impact analysis of the equine industry in Marion County. This study, performed by California-based Sports Management Research Institute, showed the equine industry had a \$2.6 billion annual impact on the local economy. This report demonstrated for many people while we are truly the Horse Capital of the World! One of the recommendations out

of that report was to continue to grow the equine events in the community.

We have two major equine events scheduled to take place later this year which will further grow the significance of equine locally while at the same time turn the global equine eyes to Ocala.

Ocala Jockey Club International Three-Day Event

The new Ocala Jockey Club International Three-Day Event, managed by well-known show organizer Equiventures, will be held at the Ocala Jockey Club for the first time November 24-27 of this year and will offer a CC12/1 and CIC3-level competitions. EEI will take over management of the event for

2017 and beyond. Who is EEI? Great question with an even better answer-- Equestrian Events, Inc. is a non-profit charitable Kentucky corporation that was established initially to produce the 1978 World Three-Day Event Championships at the Kentucky Horse Park. Following the success of those championships, EEI established an annual event that evolved into the Rolex Kentucky Three-Day Event presented by Land Rover, one of the most prestigious equestrian competitions in the world.

The 950-acre Ocala Jockey Club was developed as a family-oriented Thoroughbred horse farm community located on the rich soil of Florida's Marion County. Today, owners Pavla and Erik Nygaard are building on the Thoroughbred tradition of the farm and creating a world-class Eventing center for international competitions, training and teaching.

According to the experts at EEI, Ocala is fast becoming a global center of excellence for the sport of Eventing. With sunshine and average high temperatures of 79 degrees in November and hundreds of horse farms servicing diverse horse disciplines, Ocala has been growing as a major winter location for equestrians and is ripe for a prestigious destination equestrian competition. It is home to the Eventing coaches of several Olympic squads, including Team USA, Canada and Mexico, and many top international eventers have farms here. Recently, competitors from Europe have also been spending the winters in Ocala.

Nation's Cup at HITS

Why have they been spending winters in Ocala? HITS, perhaps the granddaddy of eventing in this area, is a huge draw and it was recently announced that they would be hosting the Nation's Cup CSIO-4 for the third consecutive year. The Nations Cup Jumping series is equestrian sport's oldest and most prestigious team challenge, with national teams from around the globe competing for one of the most coveted prizes in this Olympic discipline.

This is a huge win for HITS and Marion County. HITS believes the success of the event the last two years, both in terms of rider reviews and local support, was key to USEF's decision to bring the event to HITS Ocala again. Last year, the 2016 Nations Cup at HITS Ocala garnered over 5,000 on-site spectators, as well as an unprecedented figure of national and international media attention. The 2015 event was ranked as the second highest in national and international media interest for its overall division in the official 2015 FEI Nations Cup™ Media Report.

Make your plans now to attend both of these incredibly events here in the Horse Capital of the World!

PUBLISHER'S NOTES

(Continued from Page 4)

lages Hospital takes many insurances. There are clinics in strategic places that I hear were put in business by the Villages, they are the ones that take only United Healthcare. I have been told that many Blue Cross customers are going to Ocala. I am hearing Aetna will have some great programs this year. Watch in this paper and see!

ZIKA: I think the area will escape the Zika epidemic this year and hopefully the State and Federal Government can do something this winter to minimize it. It is on the move north, that's us!

A paragraph from Governor Scott's Press Release!

This explains the problem with our entire federal government — incompetence.

When you travel around and talk to voters all across the country today, they will tell you that Washington is broken. That's not really true, it is much worse than broken. To call our federal government broken is far too complimentary. No, the truth is that Washington is completely incompetent.

Went to a CEP/Ocala Chamber event at Peninsula Farm at Ocala Downs. It was hosted by the Elite Equestrian Magazine. The food was good and the facility was nice. During the event they presented the Royal Horses and explained how they are trained and put them through their paces. A truly beautiful site!

Trump continues to gain ground. Now that he has calmed down he makes more sense. There is a still a segment of uneducated in South Florida that still thinks Hillary does a good job! She is scared to death and is watching Trump take away her voters. The ones that are staying just don't know any better.

My wisdom to Trump is "Don't let them bait you on issues!" VOTE! VOTED!

We are excited that we have several new people helping us. Suzan Carlson of Legal Shield is helping us and Julie Atkinson who just sold her business. Julie knows a lot of people and will be a great help. So if one of these people come in to see you please take the time to listen to them.

ONE PERSON'S OPINION

LETTERS TO THE EDITOR

Dear Mr. Loury:

Why our founding fathers gave us the 2nd Amendment. The founding fathers knew what they were doing.

All of past history shows that the shift from a mass army of citizen soldiers to a smaller army of professional fighters leads to a decline of democracy.

The weapons obtainable by the state today are far beyond the pocketbooks, understanding, or competence of the ordinary citizen. An authoritarian political system that reflects the inequality in control of weapons will be established. Page 1200. Tragedy and Hope by Carroll Quigley. See additional documentation pages: 22-23, 187-189.

The French Revolution was fought by housewives using knives forks, and scythes.

The ability to stave off an authoritarian government is the reason for the 2nd amendment.

Life becomes more stifling every day, law by law, regulation by regulation, executive order by executive order. What do I do that needs this much control?

Is this your fault? What are you doing that needs this much control??? If it is your doing, would you please cease and desist. See if the government disarms.

When I took the arms test, the target looked like Swiss cheese, in the Heart of the target. Totalitarian government scares me. WE by evgeny Zamyatin, Brave New World by Aldous Huxley, and 1984 by Orwell were clinchers. There are POWER LUSTERS in every generation.

D. I. L.

I am appalled, enraged, and deeply saddened by this latest fad of disrespecting the anthem and the flag. It has now spread to colleges, high schools, and middle schools. And now there's a state senator and a female sailor—both of those have taken an oath to support the nation and are happy to take a paycheck and benefits from this "oppressive" nation. I mourn that there is a void where there should be a sense of national unity and pride in the hearts of all Americans. More of that, Alinsky, fundamental transformation.

Pelosi's "pass it so we can see what's in it" evidently doesn't work with the Russians at the U.N. I think Kerry is just as bad as Hillary as Sec. of State.

**"Vitaly Churkin said there was no

point in briefing the council if the U.S. did not want to say exactly what was in the documents outlining the deal hammered out last week by U.S. Secretary of State John Kerry and Russian Foreign Minister Sergei Lavrov. 'This briefing is not going to happen and mostly likely we're not going to have a resolution of the Security Council because the United States does not want to share those documents with the members of the Security Council and we believe that we cannot ask them to support a document which they haven't seen,' Churkin said."**

RON

Dear Sir or Madam:

Just read about the: What I would do as president, feature.

The only one I thought had any substantive merit was the one by Tom Hanks.

Even though the event is over I would appreciate it if you gave my suggestion a read.

This is a dream I have had for years. It has been given much thought and study.

EDUCATION:

WE HAVE NONE. We have brainwashing, and propagandizing, and it costs \$260,000 for the privilege.

There are two kinds of becoming knowledgeable.

Education for job skills we should encourage and pay for.

Knowledge is needed for LIVING SKILLS, and this available all day every day, in a multitude of venues, Interaction with other humans, {Study them}. All forms of media, libraries, books { my personal addiction}. No voting until you master a certain amount of knowledge about the country you live in. It is a duty to vote knowledgeably.

If you do not care to learn, why would you care about voting. Brain washing does not qualify one to vote. Watters World leaves many aghast.

Any form of government that advocates an elite that controls the money, goods, and means of production is limiting freedom. Socialism, Marxism, Fascism are a few examples. Our founding fathers tried to protect us from that fate. Power lusts have made inroads upon our freedoms. The best hope for a recovery is our capitalist system.

The power lusts have found a way to gain control of our money supply. We need representatives to repeal all the LEGAL PLUNDER LAWS they have managed to bribe into law. Bastiat warned us about this in 1866. Will we ever learn?

The Law by Bastiat would be the first book I would encourage every citizen make themselves acquainted. 69 pages. Is this too much to ask? Find a DVD. Have someone read it to you.

After that I have a list of hundreds of books of knowledge from among the 4000 books I have read {over 50 years}, then, we will talk.

If you do not understand what elites are saying, and intend doing to citizens it is folly. Knowledge is the only antidote for elite SPEAK.

Knowledge for illiterates, and the harried {the overworked}, and bureaucrats. My first presidential act.

REAL KNOWLEDGE.

■ Governor Rick Scott ■

FROM THE GOVERNOR'S DESK

Gov. Scott Directs DEP to Investigate St. Petersburg Sewage Spill

TALLAHASSEE, Fla. – Governor Rick Scott directed the Florida Department of Environmental Protection (DEP) to investigate the recent sewage discharges in St. Petersburg. While the City of St. Petersburg is responsible for conducting testing in the immediate area of the sewage spill, Governor Scott yesterday directed DOH to begin additional testing at this site. Additionally, the Florida Department of Health (DOH) continues to monitor the water quality and conduct sampling at 14 beaches which includes nine in Pinellas County and five in Hillsborough County. Earlier this month, following Hurricane Hermine, the City of St. Petersburg dumped about 150 million gallons of raw and partially-treated sewage and wastewater into Tampa Bay and Boca Ciega Bay.

Governor Rick Scott said, "Florida is known for our pristine environment, world-class beaches and award winning state parks. We must do all we can to protect our environment and that is why I am directing the Florida Department of Environmental Protection to investigate the sewage dump that occurred in St. Petersburg following Hurricane Hermine. Today, I spoke with Nick Wiley, Executive Director of the Florida Fish and Wildlife Conservation Commission, and requested that they provide assistance to

DEP if necessary during its investigation. I want to thank Representative Kathleen Peters, Senator Jeffery Brandes and Senator Jack Latvala who have been focused on this issue and I look forward to reviewing DEP's findings."

At this time, DOH has issued one health advisory for Simmons Park Beach in Hillsborough County which is across the bay from St. Petersburg.

Governor Rick Scott Appoints Three to Supreme Court Judicial Nominating Commission

TALLAHASSEE, Fla. – Governor Rick Scott announced three reappointments to the Supreme Court Judicial Nominating Commission.

Daniel E. Nordby, of Tallahassee, is an attorney and partner at Shutts and Bowen, LLP. He previously served as the General Counsel for the Florida House of Representatives from 2012 to 2014, and as General Counsel for the Florida Department of State from 2011 to 2012. He received his bachelor's and law degree from the University of Florida. Nordby is reappointed for a term beginning August 30, 2016, and ending July 1, 2020.

Nilda R. Pedrosa, of Pinecrest, is the Deputy Chief of Staff for Attorney General Pam Bondi. Previously, Pedrosa served as Chief of Staff for Congressman Mario Di-

az-Balart from 2009 to 2010, and as Senior Policy Advisor to U.S. Senator Mel Martinez from 2005 to 2009. Pedrosa received her bachelor's degree from Florida International University and her law degree from New England Law. She is reappointed for a term beginning August 30, 2016, and ending July 1, 2020.

Israel U. Reyes, of Coral Gables, is the managing partner and president of The Reyes Law Firm, P.A. Reyes previously

served as a Circuit Court Judge for the Eleventh Judicial Circuit from 2003 to 2011 and a County Judge for Miami-Dade from 2002 to 2003. From 1998 to 2002, he was an Assistant State Attorney for the Office of the State Attorney, Eleventh Judicial Circuit. He received his bachelor's degree from Florida International University and his law degree from Nova Southeastern University. Reyes is reappointed for a term beginning August 30, 2016, and ending July 1, 2020.

Letter to Governor Scott

09-03-16

Ocala DownTown Newspaper

Governor Scott

I have emailed you several times and have not received a response.

I own and operate four monthly newspapers. Two in the Villages FL and two in Ocala. I urge you to look at the new evidence that has come out on the Sheriff Blair case.

The simple way would be to go online to my current newspaper Google

Ocaladowntown.com click on sept. You will see the evidence I speak of with pictures to help with the facts.

It appears the evidence was mis-used,

I don't know if it was on purpose but now thousands of people have seen it. I think the problem will only grow worse because people are mad over the un-just actions. I am told you are the only one who can fix this. I believe the FBI could also.

Ocala needs your help getting an un-just act fixed. Four of our top Sheriff supervisors lives have been ruined and most of the people believe it is political.

Please review the evidence and let me know what you think, I will print your review!

Ocala Fire Rescue

(OCALA, Fla.) September 23, 2016 – Ocala Fire Rescue firefighters have had a Friday filled with fire calls which have not only ranged in structure type, but which became progressively worse as the day elapsed.

The morning began with reports of a fire at 1850 SE 18th Avenue. At 7:58 AM a caller advised Marion County Dispatch that a building located in Deerwood Apartment Complex appeared to be on fire. Crews arrived to find smoke showing out of a work shed. Entering the smoke filled shed, firefighters proceeded to identify hot zones and ambers throughout the garage, watering each area with a possible threat along the way. No one was in the shed at the time of the fire. No injuries were reported.

The second fire call came in at 10:17 AM, when a neighbor noticed that the Recreation Vehicle next to his was on fire. Firefighters arrived at 4001 West Silver Springs Boulevard to find an RV with flames covering ap-

proximately one third of the structure. The RV, which was not occupied at the time of the fire, was a total loss.

The last fire however, left a man seriously burned. At 2:41 PM, OFR was dispatched to 1512 SE 43rd Avenue, where a man working on his motorcycle suffered serious burns after fuel from the motorcycle ignited. Three minutes later firefighters were on scene preparing the patient for transport to Shands Medical Center. No other injuries were reported.

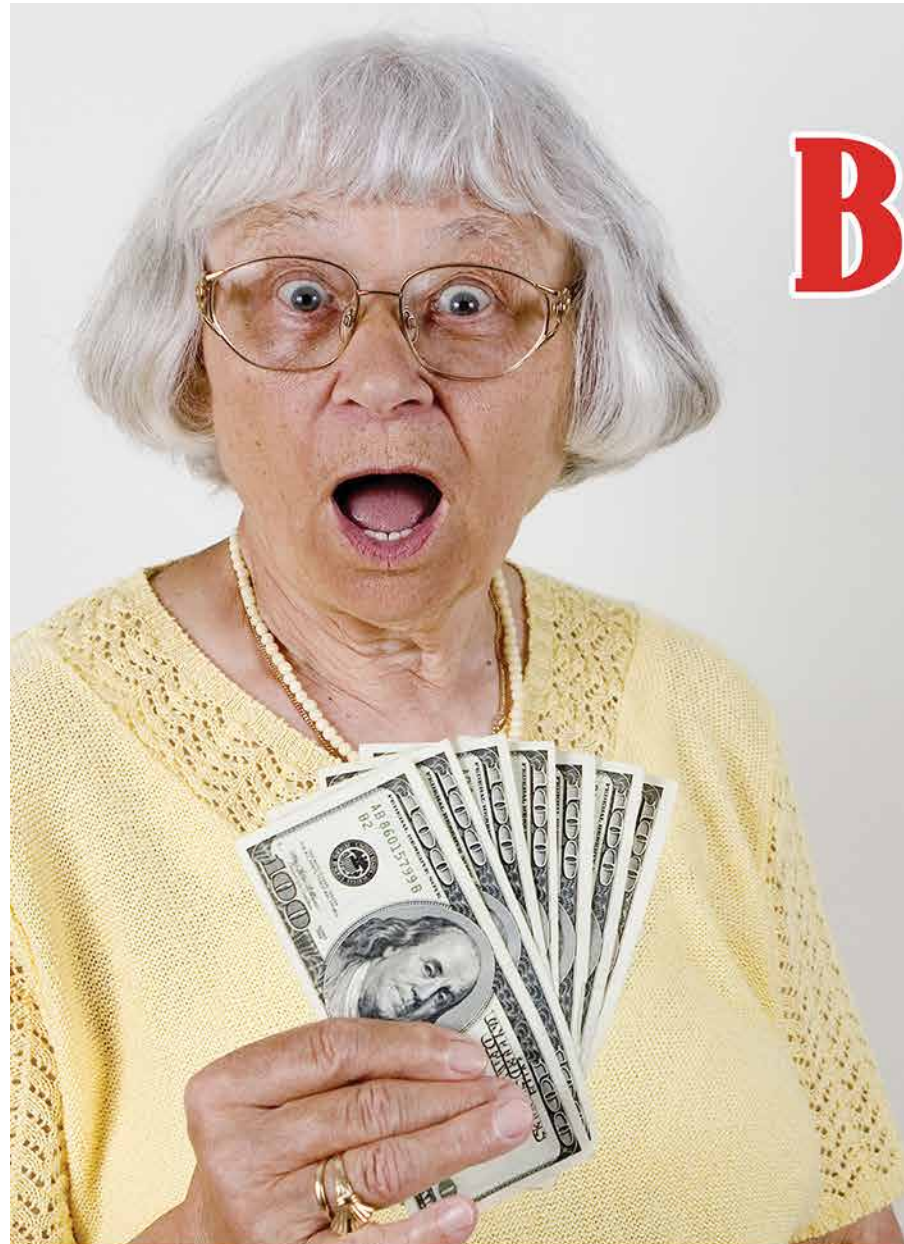

Man Killed by Falling Tree During Storm

MARION COUNTY, Florida (September 2, 2016)- On Friday, September 2, 2016, Marion County Sheriff's Office (MCSO), Ocala Fire Rescue (OFR), and the Ocala Police Department (OPD) responded to the Diamond Oil gas station located at 3380 SE Lake Weir Avenue in reference to a storm-related death.

The investigation revealed that three individuals were sleeping in tents behind the Diamond Oil when a tree fell onto their campsite. Two individuals were able to get out from under the debris and call 911. Units from MCSO, OFR and OPD responded and immediately began clearing debris, at which

time, they discovered a white male, who was later identified as John Mayes (DOB: 2/1/1960). Mayes received fatal injuries from the fallen tree.

Lieutenant Chip Wildy, Marion County Emergency Management Director, stated "It is always tragic when there is a loss of life during a natural disaster. Emergency Management personnel along with first responders are actively assisting our citizens with anything they may need following this storm." Our Citizen Information Line will remain open until noon to help answer any questions regarding the storm. You can contact them by calling 352-369-7500.

Proactive Steps To Reduce Your Fall Risk

(NAPS)—Research by the Centers for Disease Control and Prevention shows that falls are the leading cause of fatal and nonfatal injuries for seniors. Fortunately, through a combination of technology solutions and lifestyle choices, seniors can be prepared for the event of a fall, as well as take proactive measures to decrease the likelihood during Fall Prevention Awareness Week (September 22 to 28) and all through the year.

For example, medical alert devices, such as Philips Lifeline, can provide access to a Response Center to contact emergency help should a fall occur. In the event of a fall, time between the fall and getting medical attention matters. Studies show that seniors using a medical alert device saw an emergency response time more than 320 times faster than seniors having to call for help on their own. Beyond using these devices, Fall Prevention Awareness Week marks an occasion to remind seniors that staying physically and mentally active can help prevent falls. To begin and maintain this activity, here are three recommended steps seniors can take to support an independent and healthier life:

- Establish a regular fitness regimen. Sedentary lifestyles can gradually cause poor

flexibility, loss of strength and decreased bone mass—all of which will increase the chances of falling. Establishing a consistent fitness routine will put your body in better shape and make exercise easier as you get older.

- Adhere to medication and physician orders. Eighty-seven percent of adults aged 65 or older take at least two medications and 42 percent take five or more. With long lists of medication, adherence can be difficult—but it's vital to follow

all directives and advice from your physician to avoid mistakes that can lead to falls.

- Stay social in your community. Although many older Americans value their independence, it's important to be social and surrounded by others who care about you. This will help lower your chances of depression, make you happier as you age, and increase the chances of someone being there for you if you fall and need help.

If you or a loved one is concerned about fall risk, take this advice to heart and consider sharing with friends. By combining this advice with available technologies, such as medical alert devices, you can be properly prepared for all circumstances.

and learning how you can prevent falls, visit www.lifeline.philips.com.

Stay fit to stay on your feet. The stronger

and more flexible you are, the lower your risk of falling.

Grilling Expert Shares Number One Tip For Tailgating Success

(Continued from Page 3)

ready to use.

3. Prepare the grill for indirect cooking over medium heat (350° to 450° F).

4. Mix the rub ingredients. Season the chicken breasts all over and between the skin and meat with the rub.

5. Drain and add the wood chips to the charcoal or to the smoker box of a gas grill, following manufacturer's instructions, and close the lid. When smoke appears, grill the chicken, skin side down first, over indirect medium heat, with the lid closed, until the juices run clear and the meat is no longer pink at the bone, 25 to 30 minutes, turning once when the skin releases easily from the cooking grates. Remove the chicken from the grill and, when cool enough to handle, shred into pieces, discarding the skin and bones.

6. Increase the temperature of the grill to

high heat (450° to 500° F).

7. Spread half of the tortilla chips into a large grill-proof pan. Distribute half each of the cheese, scallions, jalapeño, and chicken over the chips. Repeat with another layer.

8. Place the pan with the nachos over indirect high heat, close the lid, and cook until the cheese is melted and the chips are tinged golden brown, 7 to 9 minutes. Wearing insulated barbecue mitts or gloves, carefully transfer the pan to a heatproof surface. Top the nachos with the avocado and then drizzle with the chipotle cream and lime juice. Garnish with the cilantro. Serve hot with salsa, if desired.
